The Golf Walk

Walk overview:

Distance: 3.5 miles (6 km)

Time: 1.5 – 2 hour

Description: An enjoyable walk through Wellshurst golf course and back through the fields of Rock Harbour Farm.

Leave The Gun and turn right onto the road. Follow this road, past the sign 'Pick Hill' on the right and at the top of the hill you meet a style marked by a yellow arrow on the right (be careful, it could be hidden by the bushes). Climb over it and walk straight down the hill. Go over the next style and keep walking down until you meet the next one **(1)**. Climb over it and walk diagonally across the field. Pass the farm buildings on the left and climb over a style into the forest. Follow the trail over a very small footbridge until you meet an iron gate which leads to a private property. Turn right and keep walking along the fence (the fence is on the left and the forest is on the right) until you reach a wooden gate **(2)**. Walk through and turn right onto the road.

Walk along the road for 0.1 mile (150m) until a wooden 'Public Footpath' signpost on the left. Follow the signpost, turn left onto a small trail and then turn left again onto a rural road. Keep walking along this road until the road bears to the left. Follow a yellow arrow and walk straight onto a track. From now you are on the golf course so be careful about the flying balls! Carry on straight along this track, past a small pond on the left and still walk straight until you reach a bigger rural road. Turn left onto this road (follow a signpost 'To the 8th Tees'), walk over a bridge **(3)** and up the hill. Still follow the signposts 'To the 8th Tees' until you see a warning sign 'Out of Bounds'. Keep walking straight past the sign and walk along the trees and bushes on the right until you see a wooden bridge down the slope. Walk over this bridge and keep walking up the hill in the direction of golf club buildings. Follow the track along the trees and bushes until you are in between golf club buildings. Keep on the right and walk around them (You can see a facility for the practicing of launches).

When you reach a concrete road turn right onto it and walk alongside the high fence. At the end of the fence you can see a small wooden post with a yellow arrow on the left. Follow the arrow, walk past the post into the field. Walk along the trail past a bench with a signpost **(4)** and follow the next signposts with yellow arrows to the left and then to the right. Continue along the edge of the field until a small footbridge **(5)**. Walk over it and follow the trail straight up the hill and in between fields until the 'Wealdenway' signpost.

Turn right along the Wealdenway and climb over two styles in the corners of the fields. Keep walking straight along the edge of the field and climb over the next style into the next field. Continue straight across the field and climb over a style with a small footbridge **(6)**. Keep walking straight across the field (past farm buildings on the right) to the corner. Climb over the last style and turn right onto the rural road (follow the 'Wealdenway' signpost).

Walk along this road past Rock Harbour Farm house and in front of the pond turn left (follow the 'Wealdenway' signpost). Keep walking along this road until a bigger asphalt road. Turn right onto the road and walk for 0.1 mile (150m) until a wooden signpost with yellow arrows on the right. Turn left and climb over a style into the field. Continue along the edge of the forest and later straight across the field (you can see The Gun in front of you). Climb over a style into The Gun playground and go back to The Gun.
