Leave The Potting Shed, turn left and cross the main road A274. Turn left and keep walking along the pavement for about 0.1 miles (150m) until a 'Public footpath' stone on the right.

You can continue a little further until the church entrance gate if you want to see the grounds of St.Mary's church, and then return to the 'Public footpath' stone.

Turn right and follow the road through the metal gate. After 20 yards (20m) turn left and follow the footpath straight past an old water tank into another field. Turn left and after 20 yards (20m) turn right and follow the edge of the field for about 0.2 miles (300m), then turn right and keep walking along the footpath through the field **(1)**. When you get to another field, turn left and keep following the footpath (in the direction of the property ahead) until a road (the footpath leads through the field and later along the fence of the property towards the road).

Turn right onto the road and keep walking for about 100 yards (100m) until a 'Public footpath' signpost on the left. Turn left onto the footpath and follow it through the field (in the direction of the corner of the hedges ahead), later follow the edge of the field (the hedges are on the left hand side, the field is on the right) until a turning metal gate **(2)**. Go through it and follow the footpath along the hedges and later along the property until another metal gate.

Go through it and turn left onto the road. After 20 yards (20m) turn right onto a smaller road (Church Road). Follow the road for about 0.1 miles (150m) until the 'Public footpath' signpost on the right hand side. Turn right onto the footpath and walk through the bushes into the orchard. Turn left onto the track and keep walking for about 0.15 miles (200m) until the track bears right just before a metal gate. Turn right and follow the track for about 0.2 miles (300m) until a crossroad with another track. Turn left onto the track, walk through the hedges and immediately turn right onto another track and follow it along the hedges (hedges are on the right) until a road.

Turn right onto the road and keep walking along it for about 0.3 miles (500m) until a T-junction with another road. Turn right onto it and after 30 yards (30m) turn left onto Chart Corner (in the direction of Langley and Maidstone). Follow this road until a crossroad with the main road. Turn left onto the main road and keep walking for about 0.2 miles (300m) until a 'Public footpath' signpost on the right hand side.

Turn right onto the road and carry on until the entrance gate into Pleasant farm **(3)**. In case the gate is closed, there is a small sensor attached to a wooden post on the right hand side. Wave your hand at it and the gate will open. Go straight

through the farm until a T-junction. Turn left onto the track and continue along it and through the metal gate **(4)** next to a post with a KCC sticker. After 30 yards (30m) turn right and keep walking along the track between the trees until another metal gate. Go through it and continue straight a little further to another one. Go through and follow the metal fence for about 100 yards (100m) until a turning metal gate on the right hand side **(5)**. Go through it and keep walking straight along Langley Loch for about 0.4 miles (650m) (at one point you will cross a track) until a footpath crossroad. Keep right and follow the footpath until a stile **(6)**.

Climb over it and keep walking along the edge of the field until the corner. Turn left and carry on along the edge (the field is on the left hand side and the properties are on the right) for about 30 yards (30m) and then turn right (along the wooden fence). Go through the metal gate and keep walking until a road. Turn left and keep walking along the pavement for about 0.1 miles (150m) until The Potting Shed on the right.
